```

18/10/2017 · Appium Client的安装可以用Maven来构建: Maven配置代码: io.appium.java-client 2.1.0 2. 或者直接下载jar包, 添加到测试项目中, 12/03/2022 · If you do not have one, please add the Maven dependency below to your project in IDE. In this case, the IDE being used is Eclipse. Run Appium Test on Real Devices for Free // Maven users can add this dependency to project's POM io.appium.java-client 7.0.0 . Constructors of io.appium.java_client.android.AndroidDriver and io.appium.java_client.ios.IOSDriver are same still. The pushFile(String remotePath, File file) was added to AndroidDriver; FIX of TouchAction. Instances of the TouchAction class are reusable now; FIX of the swiping issue (IOS, server version >= 1.5.0).
